

# **Elevating women's leadership for resilience through Indonesia Women's Forum in Disaster Management**

*Delivered during Partner Event 17: Realizing women's  
leadership for resilience in the Asia-Pacific region*

Fega Ayu Pangestika, U-INSPIRE Indonesia

# Challenges

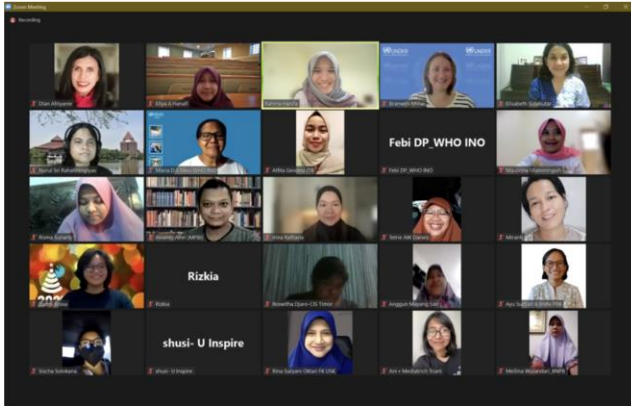

# What is the role of Women in DRR ?

Voice of Women within the U-INSPIRE Alliance, BRIN, and Indonesia's women forum in Disaster Management, 09.03.2022

# The process

# Major achievements and challenges observed in the last two years

Implementation of policies on gender inclusion in DRM and GBV prevention and management, including increased partnerships between government and stakeholder agencies on gender mainstreaming and women's involvement

Increased capacity development on gender inclusion, GBV prevention and management, and minimum standard for Sexual Reproductive Health in disaster emergency response

Increased focus on developing guidelines and assessment tools for SADD, as well as increased evidence and documentation on good practices on GEDSI

Increased opportunities for discussion on women's meaningful participation and leadership in DRR and DM

# The Indonesia Women's Forum in Disaster Management

- Is a forum for women from various elements of society to share knowledge and support capacity building in DRM
- the Forum has goal to elevate women's voice and initiatives at the local level to national and international level
