ASIA-PACIFIC MINISTERIAL CONFERENCE ON
Disaster Risk Reduction
Brisbane, Queensland, Australia 19–22 September 2022

WWF-Pacific Nature underpins the adaptive ability of Pacific Island Countries

Fiji's Great Sea Reef Land and Seascape

- building a Great Sea Reef Community of Resiliency in partnership with grassroots communities, the Fiji Government, and other relevant stakeholders.

TIKINA NACULA
SUSTAINABLE DEVELOPMENT PLAN
2018 - 2038

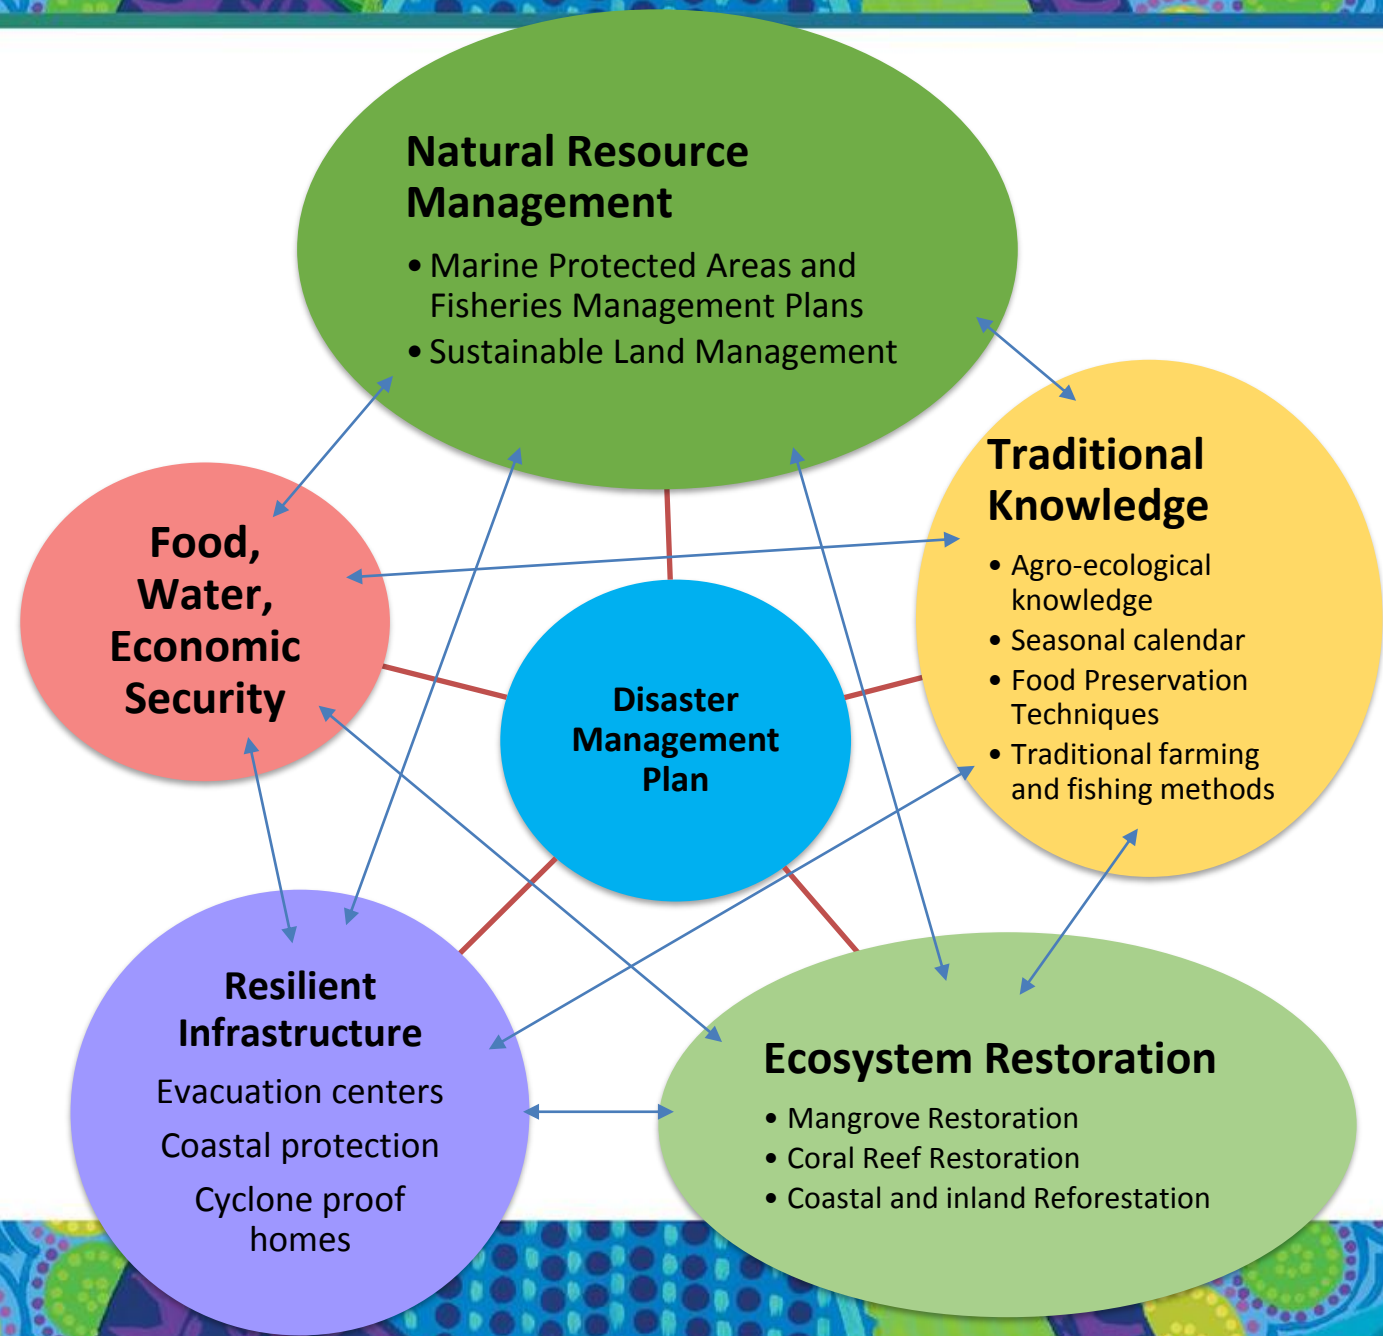

1. Disaster Preparedness – plan and prepare in advance!

2. Disaster Response – working together to ensure everyone’s safety

2. Disaster Recovery – building back together and better!

Key Asks from the Communities:

1. Protect Nature and Biodiversity – its our security!
2. Include grass-root communities in all decision making processes that affects them
3. No “one size fits all”
4. Support community-based resilient initiatives including the use of traditional knowledge, nature based solutions and ecosystem based adaptation – we want to be part of the solution!
5. Strengthen community governance structure, build community capacity, resource mobilisation such as transfer of appropriate resilient technology including innovative sustainable financing
6. Ensure the rights and dignity of IPLCs, women and youths are protected at the highest legal & political level and ensure just and equitable share of benefits arising from the use of their natural resources

Our Solutions are found in Nature!

Nature-Based Solutions by the People for the People
