How can we implement inclusive disaster management program on the implementation of resilient infrastructure and system?

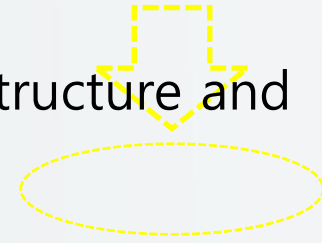

- *ANALYZING THE HAZARD, VULNERABILITY AND EXPOSURE DATA*
- *ENSURE COMMUNITY AWARENESS OF THE RISKS, TO GTHE PLANNING AND TO IMPLEME
NTATION TO TAKE OWNERSHIP AND ACCEPTANCE.*
- *DATA-DRIVEN PALLNING PROCESS FOR PRIORITIZATION OF PROGRAMS.*
- *MAXIMIZE ENGAGEMENT OF PARTNERS AND STAKEHOLDERS TO AUGMENT*
- *DEFICIENCIES IN CAPACITY AND FINANCIAL RESOURCES*
- *ENSURE REALISTIC GOALS FOR RESILIENCY*
- *INSTITUTIONALISATION OF PLANS, REGULATIONS AND FUNDING*
- *IMPLEMENTATION OF PROGRAMS BASED ON PLAN*
- *MONITORING AND EVALUATION ON THE PROGRESS OF IMPLEMENTATION*

MAJOR TARGETS TO ACHIEVE OUR GOALS AFTER THE CREATION OF THE CITY DISASTER RISK REDUCTION AND MANAGEMENT OFFICE IN 2016:

1. Build culture of preparedness through increased adaptive capacities of the vulnerable community
2. Ensure environmental readiness through adequate resources management

3. Increased resilience of critical necessary infrastructure and standardized emergency management

4. Enhanced community capacity through knowledge management, access to information, and institutional capacities.

AN INCLUSIVE COMMUNITY BASED DISASTER RISK
REDUCTION AND MANAGEMENT PROGRAM ENCOMPASSES
THE PARTICIPATION OF THE MARGINALIZED SECTOR ESPECIALLY
WOMEN AND YOUTH AND OTHERS...

"THE KEY TO REDUCING OUR VULNERABILITY TO DISASTER
RISK EXPERIENCES IS ENSURING THAT EVERYONE IN THE
COMMUNITY IS INFORMED AND INVOLVED."

“WE CANNOT ALWAYS PREDICT WHAT THE FUTURE
HOLDS FOR US
BUT WE HAVE THE POWER TO CREATE A COMMUNITY TH
AT IS PREPARED FOR WHATEVER FUTURE IS
COMING FOR US.”

Thank You!
